

MD AKRAM

Full Stack Engineer — Web Applications

mdakram12022002@gmail.com | +91 8863064946 | Hyderabad, Telangana | LinkedIn | GitHub | Portfolio

SUMMARY

Full Stack Engineer with production experience in **Node.js**, **Express**, **React**, and **MongoDB**, building scalable web applications and **RESTful APIs**. Built end-to-end applications with **payment integration** (Razorpay), **cloud storage** (Cloudinary), **authentication systems** (JWT, OTP, RBAC), and **LLM integration** (Gemini, OpenAI). Skilled in **database optimization** and **cloud deployment** (**Azure**, **Docker**, **CI/CD**). Solved **145+ DSA** problems. Experienced in **debugging**, **cross-functional collaboration**, and delivering **production-ready applications**. Seeking frontend, backend, or full-stack roles.

TECHNICAL SKILLS

- **Backend:** Node.js, Express.js, RESTful API Design, JWT Authentication, RBAC, Middleware Architecture, API Rate Limiting, Input Validation, Error Handling.
- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5/CSS3, React Hooks, Component-Based Architecture, REST API Integration, Debugging.
- **AI & Payment Integration:** Gemini API, OpenAI API, LLM Integration, Razorpay, Cloudinary, Nodemailer, OAuth.
- **Database:** MongoDB (Proficient), PostgreSQL, Redis, Schema Design, Query Optimization, Compound Indexing.
- **Deployment/Tools:** Docker, Microsoft Azure, GitHub Actions (CI/CD), Git/GitHub, Postman, Vercel, Render.
- **Languages:** JavaScript, TypeScript, C++, Python, SQL.

EXPERIENCE

Diyos Infotech Pvt. Ltd. (Hyderabad, Telangana)

March 2026 – April 2026

Frontend Engineer Intern – FaME Enterprise Resource Planning (ERP) System

- Architected and delivered **33+ production-ready UI components** across 6+ core modules (Client Management, Payroll, Invoicing, Reporting) using **React.js** and **TypeScript**, implementing complex **form validation** with real-time **error handling** for PAN, PF, ESI, and HSN code validations.
- Created responsive AddClient screens with live address mirroring, reducing form completion time by **20%**; developed **REST API-integrated** receipt tables and resolved Inventory Module **blank-screen** bugs, reducing support tickets by **25%** through effective **debugging**.
- Collaborated with **cross-functional** backend and QA teams to optimize **UI rendering** across **70–100%** zoom levels, ensuring consistent user experience and saving **1.5 hours** of weekly **debugging** time for the support team.

PROJECTS

StudyPoint – EdTech Platform | MERN, Redux, Razorpay, Cloudinary | Live | GitHub

Feb 2025

- Delivered full-featured EdTech platform following **MVC architecture** with **Redux state management**. Integrated **Razorpay** for payments, **Cloudinary** for video uploads, and **Nodemailer** for automated confirmations — reducing checkout steps from **5 to 3**, boosting signups and supporting **100+ users**.
- Designed 19+ secure RESTful APIs with **JWT**, **OTP**, **RBAC authentication**. Deployed frontend to Netlify and backend to **Azure App Service** using **Docker** with **CI/CD** via **GitHub Actions** for zero-downtime updates. Optimized **payment** flow using **React Hooks**, boosting conversion rates.

KnowBase – AI Platform | Next.js, Node.js, Express, MongoDB, LLM API Integration | Live | GitHub

Feb 2026

- Built full-stack AI platform with modular service-layer architecture, integrating **LLM APIs (Gemini)** for automated summarization and semantic search across **1,000+ documents**. Leveraged **MongoDB text indexes** and **batch processing pipelines**, reducing search latency by **30%** and achieving **95%** relevance scoring.
- Deployed **8+ RESTful APIs** with **JWT authentication**, **rate limiting**, and input validation. Designed modular architecture supporting **5+ core modules**, reducing feature development time by **21%** and enabling rapid iteration.

DSA AI Assistant – Chatbot | React, Node.js, Express, Gemini API, OAuth, Markdown | Live | GitHub

Sep 2025

- Engineered AI-powered DSA assistant using **Gemini API** that delivers structured explanations with complexity analysis, formatted code examples, and interview-focused tips — eliminating the need to juggle multiple sources (**YouTube**, **LeetCode**, **textbooks**) and reducing login-to-learning friction by **60%**.
- Implemented guest authentication with optional **Google OAuth**, multi-session chat history, and real-time **Markdown** with syntax highlighting. Enabled switching between **3+ concurrent chats**, creating an all-in-one learning environment.

EDUCATION

Technocrats Institute of Technology

Sep 2022 – May 2026

Bachelor of Technology in Computer Science – AI ML

Bhopal, Madhya Pradesh

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900) | Credential
- Generative AI Certificate – Microsoft & LinkedIn Career Essentials | Credential
