MD AKRAM

Software Engineer — Full Stack Developer

mdakram12022002@gmail.com | +91 8863064945 | Hyderabad, Telangana | LinkedIn | GitHub | Portfolio | LeetCode

Summary

Software Engineer with hands-on experience building **full-stack web applications, microservices, REST/gRPC APIs, and distributed backend systems** using **JavaScript, TypeScript, React.js, Node.js, FastAPI, MongoDB, PostgreSQL, and Redis**. Strong foundation in **Data Structures & Algorithms, Object-Oriented Programming, and basic system design**. Experienced in implementing **JWT authentication, RBAC, event-driven workflows, and AI-powered applications**. Skilled in **Docker, GitHub Actions CI/CD, AWS EC2, Azure, API testing**.

Technical Skills

- **Languages:** C++, Python, JavaScript, TypeScript, SQL, Object-Oriented Programming, Data Structures & Algorithms.
- **Frontend:** React.js, TypeScript, Next.js, HTML5, CSS3, Tailwind CSS, React Hooks, Redux, Responsive Web Design.
- **Backend:** Node.js, Express.js, FastAPI, Microservices Architecture, RESTful APIs, gRPC, RBAC, JWT Authentication, Middleware, API Rate Limiting, Input Validation, Error Handling.
- **Databases & Messaging:** MongoDB, PostgreSQL, Redis, pgvector, BullMQ, Schema Design, Query Optimization.
- **Testing:** API Testing, Functional Testing, Postman, Playwright, Performance Optimization, Code Quality.
- **Software Engineering:** SDLC, Basic System Design, Distributed Systems, Saga Pattern, Transactional Outbox, Event-Driven Architecture, Problem-Solving, Root-Cause Analysis, Code Review, Debugging.
- **DevOps & Cloud:** Linux, Git, GitHub Actions (CI/CD), Docker, Docker Compose, Microsoft Azure, AWS EC2.
- **Generative AI:** LangGraph, LLM Integration (OpenAI, Groq APIs), RAG Pipeline, Vector Search, Semantic Search.

Experience

Diyos Infotech Pvt. Ltd. (Hyderabad, Telangana) **Mar 2026 — Apr 2026**

React Developer Intern — FaME Enterprise Resource Planning (ERP) System

- Resolved **33+ development tickets** across ERP modules using **React.js** and **TypeScript**, implementing form validation and real-time error handling for PAN, PF, ESI, and HSN codes.
- Developed responsive **AddClient** screens with live address mirroring, reducing form completion time by **20%**; integrated **REST APIs** for receipt tables and fixed Inventory Module blank-screen bugs, reducing support tickets by **25%**.
- Collaborated with **backend and QA teams** to improve UI consistency across **70–100% zoom levels**, saving **1.5 hours of weekly support debugging effort**.

Projects

OrderFlow — E-Commerce Platform | *Microservices, Node.js, FastAPI, PostgreSQL* | Live | GitHub **Oct 2026**

- Architected a microservices-based e-commerce platform with **5+ independent services**, an **API Gateway**, and **REST/gRPC APIs**, separating user, product, order, payment, and notification workflows across PostgreSQL and MongoDB.
- Engineered reliable distributed order processing with the **Saga Pattern**, **Transactional Outbox**, **Redis Streams**, and **BullMQ** for event-driven workflows, background jobs, and retries. Secured APIs with **JWT authentication** and rate limiting, using **Docker Compose** and **GitHub Actions CI/CD** for orchestration and automated testing.

Healthcare — CRM Systems | *React.js, FastAPI, PostgreSQL, AWS EC2, LangGraph* | Live | GitHub **Sep 2026**

- Orchestrated a **LangGraph** state machine with **8 Pydantic-validated tools** for entity extraction, voice-note summarization, and semantic follow-up suggestions, converting unstructured input into structured **CRM** fields via **Groq-hosted LLMs** across **5+ core screens**.
- Established secure **FastAPI** with **JWT**, **RBAC** (rep/manager/guest), and audit logging, plus a **pgvector**-powered **RAG** pipeline for grounded AI responses. Developed **React/Redux** frontend, containerized with **Docker**, and deployed on **AWS EC2** with **GitHub Actions CI/CD** and health checks.

StudyPoint — EdTech Platform | *MERN, MVC, Docker, GitHub Actions, Azure* | Live | GitHub **Feb 2025**

- Delivered a full-featured EdTech platform using **MVC architecture** and **Redux state management**. Integrated **Razorpay** for payments, **Cloudinary** for video uploads, and **Nodemailer** for confirmations, reducing checkout steps from **5 to 3** and supporting **100+ users**.
- Implemented **19+** secure RESTful APIs with **JWT authentication**, **OTP verification**, and **RBAC**. Deployed frontend to Vercel and backend to **Azure Container Instances (ACI)** using **Docker** and **GitHub Actions** for CI/CD. Optimized the payment flow using **React Hooks**.

Education

Technocrats Institute of Technology **Aug 2022 — Jun 2026**

Bachelor of Technology in Computer Science — AI & ML *Bhopal, Madhya Pradesh*

Certifications

- Microsoft Certified: Azure Fundamentals (AZ-900) | Credential
- Generative AI Certificate — Microsoft & LinkedIn Career Essentials | Credential
